PHASE 2
DESIGN &
TEST

# **Concept Development Canvas**

**Effort** 

### **Objective**

To have a set of viable concepts that detail the different aspects ike audiences, solution functionalities, and behavioral elements.

Time needed

4-6 hours

**Participants** 

Design and research team

#### How to use this tool

The concept development template is a framework for refining your raw ideas into viable concepts. Use this canvas to move your ideas into a full concept that integrates details like audiences, solution functionalities, and behavioral elements.

- 1. **Name the result.** What do you want the result to be? To help define this, think about what you want to make and what impact it will have.
- 2. **Describe your concept.** Think about:
  - a. The objectives of the idea and how the idea will work in detail.
  - b. The problem the concept is trying to solve and for whom.
  - c. The setting and/or where will it take place.
  - d. Whether something like this already exists and how this concept differs from it.
  - e. The players who need to be involved and their roles and responsibilities.

## **Concept Development Canvas**

| WHAT DO YOU THINK THE RESULT WILL BE?                                                                    |                                                 |                                         |
|----------------------------------------------------------------------------------------------------------|-------------------------------------------------|-----------------------------------------|
| I want to make because it will                                                                           |                                                 |                                         |
| DESCRIPTION                                                                                              | WHAT PROBLEM DOES THIS CONCEPT SOLVE? FOR WHOM? | DOES SOMETHING LIKE THIS ALREADY EXIST? |
| Describe your concept in detail What are the objectives of this idea? How will this idea work in detail? |                                                 | If so, how is this different?           |
| WHERE WILL THIS TAKE PLACE? WHAT IS THE SETTING?                                                         |                                                 |                                         |
| i<br>                                                                                                    | <u> </u>                                        | i<br>                                   |
| WHO NEED TO BE INVOLVED?                                                                                 |                                                 |                                         |
| Who                                                                                                      | Roles and Responsibilities                      |                                         |
|                                                                                                          |                                                 |                                         |
|                                                                                                          |                                                 |                                         |
|                                                                                                          | T                                               |                                         |
